FEATURES THAT SUITS IN EVERY NEED

Since the turn of the coming decades, beauty-inspired carved tiles have established a permanent place in the industry. In addition to the features listed below, these tiles have a wide range of additional features that make them more fashionable, trending, and comfortable to use overall.

 UNALTERABLE TO UV RAYS	 FIRE RESISTANT	 IMPERVIOUS	 LIGHTNESS	 LOW ABSORPTION
 FROST ATTACK	 RESISTANT TO CHEMICAL ATTACK	 RESISTANT TO STAINS	 FAST ASSEMBLY	 100% RECYCLABLE

APPROACH AREA

Incorporating the touch of luxurious comfort into your ambiance that reflects the essence of royalty while infusing the invigorating color and design that will be beautifully changing the atmosphere with the wow factor that can be used in many areas.

With all of the designs, your ambiance will be infused with luxury touches that will knock your socks off. We strive to bring you the very best of excellence for your decor, that not only enhances & enhances the best design options, but also improves the quality!

An influx of natural beauty into a space can immediately create a stunning appearance that draws attention with the addition of our collection!

WORKING WITH THE VARIOUS VERSIONS OF DIGI MATT

CUTTING WITH DIAMOND DISCS

Our products can be cut using diamond discs fitted onto the hand-held electrical grinding machine. The speed of Disc rotation must be high (>10000 RPM) and should have a low feed rate (< 1 m/min). It may be required to cool the disc with water. Recommended discs are the thin types generally used for cutting porcelain stoneware. The surface should be kept on a FLAT base while cutting without any gap underneath.

DRILLING

You can use cutting discs fitted to battery-operated screwdrivers or angle grinders, electrical drills as an alternative.

INTERNAL CUT / L-SHAPED CUT

To get internal and L-shaped corners & to reduce the risk of breakage, round the vertex of the internal corner using bits with a radius of at least 5mm. Then cut with diamond discs, be cautious to stop moving the cutting tool forward. To drill and cut using diamond discs, follow the instructions provided above.

When using these tools:

- Cool the point being drilled with water
- Don't put too much pressure and bear in mind the resistance of the type of laminated stoneware you are working on
- If you are using tungsten bits, start drilling at a low speed
- If you are using drills or screwdrivers, do not select hammering mode

EDGE-FINISHING

SUPPORT

CLEANING & MAINTENCE

Our products are non porous (due to their high quality raw materials, stringent production parameters and state of the art technology), hence any dust or deposited waste cannot penetrate the surface.

For most cases only a damp cloth is sufficient for cleaning.

Regular cleaning highlights the aesthetic features of the surface and gives it exceptional shine.

For highly aggressive cleaning caused by some common food and substances follow the table below.

TYPE OF STAIN	CHEMICAL PRODUCT	EXAMPLE
Grease	Alkaline - Solvent	Detergent
Oil	Solvent	Ammonia, Backing Soda
Ink	Oxidant - Solvent	Alcohol, Liquid Bleach, Nail Paint Remover
Rust	Acid	Hydrochloric Acid, Vinegar, Red Harpic
Lime	Acid	Descaling Reagent, Hydro Chloric Acid
Cement	Acid	Hydro Chloric Acid
Wine	Alkaline	Ammonia, Liquid Bleach
Coffee	Alkaline - Solvent	Ammonia, Liquid Bleach
Rubber	Solvent	Alcohol, Thinner
Plaster	Acid	Hydro Chloric Acid
Candle Wax	Solvent	Alcohol, Thinner
Iodine	Oxidant	Liquid Bleach
Blood	Oxidant	Liquid Bleach
Ice Cream	Alkaline	Liquid Bleach

Note: It is recommended that any kind of stain needs to get clean immediately / as soon as possible.
